Subject: Contract AF33(657)-12673

Enclosure: (A) Copies No. 1 and 3 of Task Order No. 17, AF33(657)-12673, dated 29 January 1965, OSA-0143-65 and Project Headquarters Document Receipt for Copy No. 2 of same

(B) Copies No. 1, 2, and 3 of Task Order No. 18, AF33(657)-12673, dated 18 January 1965, OSA-0139-65

(C) Copies No. 1, 2, 3, and 4 of Task Order No. 18 AF33(657)-12673, undated, OSA-0139-65

(D) Copies No. 1, 2, and 3 of Task Order No. 16, AF33(657)-12673, dated 5 January 1965, OSA-4817-64

Reference: (a) Memo No. SPM-64-016 dated 17 November 1964

*Submitted*  
Enclosure (A) Task Order copies and receipt have been signed and are returned.

Enclosure (B), Task Order No. 18, was found not to agree with our proposal for Task B-21, Reference (a), in the areas of cost, proposal document reference and time span. We have taken the liberty of re-typing the Task Order to include the necessary corrections and are returning, as Enclosure (C), three signed and one unsigned copies for your execution.

Enclosure (D), Task Order No. 16, is being returned unsigned because of a misunderstanding as to the status of Task B-19-1A. Task B-19-1A was intended by your [REDACTED] to have been a parallel effort in addition to Task B-19 (Task Order No. 15) and not as a separate task. For this reason, our

25X1A

technical personnel did not segregate the cost of B-19 and B-19-1A in such a manner that actual costs can be compared to separate Task Order fundings. By funding B-19 on Task Order No. 15 and B-19-1A on Task Order No. 16, the former will show a considerable overrun and the latter will show a considerable underrun. When considered as concurrent parts of one task, and so funded, a small underrun will probably result at the conclusion of the effort. It is our interpretation, therefore, that Task B-19-1A should be funded as an amendment to Task Order No. 15. The B-19/B-19-1A task is complete except for the final report which will be delivered about 1 March 1965.
